

I am writing regarding your proposal to expand Low Power FM stations in preference to FM translator service which provides many national & regional services such as my favorite radio station K-LOVE. I understand that your decision could force K-LOVE off of the air.

K-LOVE provides my family with positive & inspiring entertainment as well as news & information from a christian perspective that we can't get anywhere else. Losing our K-LOVE station would cause a void that no local area station could fill.

K-LOVE also provides many behind the seen services not available from any other radio station that I know of. Services such as 24 hour access to pastors for counseling & prayer. K-LOVE pastors have prevented many suicides and offered encouragement to thousands of people every year.

K-LOVE is a station that won't be replaced by local stations if it is lost. Please don't take away our K-LOVE radio station.
